AFTER YEARS OF TRIAL A FAILURE.

The Unhappy Death of Captain Oaksmith's Daughters--A Dire Ending of Romantic History.

Special Telegram to the News.

BEAUFORT, July 7.—The sad accident that occurred off this port on the 4th recalls an old time experience of Captain Oaksmith. In 1871 he left a Central American port in the bark Troubadour, laden with mahogany and logwood. His crew was taken sick, and all there were to work the vessel up through the Gulf and into the stream, were two able seamen. This made rather a short-handed crew, but with the Captain's wife at the wheel they doubled the Florida Keys and making a northerly course they eventually brought up outside the bar, off Fort Macon, and cast anchor. Here a pilot boarded him, and he was obliged to get the crew of the pilot boat to help him get his mud hook up, when she made anchorage in safety. Since then the Captain has been quite prominent in public life, and the news of the sad accident fell like a pall on the many friends of the family.

Miss Bessie, the eldest daughter, gave promise of a glowing life. She had made herself quite noted in literary circles, being endowed with a facile pen. Miss Corinne was also a gifted young lady, while the younger daughters were classed as very intelligent. L.

South American News.

PANAMA, July 7.—Lima advices to the 18th, report the rout at Calama and the capture of that point by the allied forces. Chilian losses are stated to be 15,00 killed, no official report of the action has been received and the statement is discredited. An insignificant encounter is reported at Quillaqua, on River Loa in which the small Chilian advance guard was beaten, some killed and the rest were captured. Compero was reported within twenty miles of Calama on the 16th resting preparatory to an attack on that place. Reports from Iquique state that 40,000 Chilians at Quillaqua, which would seem to indicate no advance that was made on Calama from the Peruvian territory. A Chilian Squadron was in Iquique.

The official organ of Pera published a letter from a distinguished gentleman at Iquique where he took notes of the fight of the 21st of May from the Chilian prisoners taken from the ships engaged, in which it is stated that the commander and crew of the Esmeralda were thoroughly demoralized during the combat, the crew actually recognizing no commander and throwing themselves, naked into the water before the Huascar had given the Esmeralda the fatal blow.

The Effects.

BERLIN, July 7.—A dispatch to the *Morning Post* says the prospect now regarded as certain of an early adoption of a high protective tariff has caused many merchants to import large quantities of goods in advance so as to escape the increased duties. Hence, a great falling off in trade is feared, and apparently with good reason. After the new tariff shall become a law, Bismarck, in the face of serious objections, insists upon an increase in the duty on foreign corn.

The *Times'* Berlin correspondent says the second reading of the tariff bill being now complete, the third reading will be merely a formal one and the measure will probably be completed by Saturday, when it is intended to prorogue the Reichstag. The Liberals and Socialists have made a desperate stand against the duties on coffee and petroleum, Herr Bebel declaring they would breed much discontent and also furnish fresh stimulus for social and democratic agitation.

Solovieff Once More.

LONDON, July 7.—The person who supplied the pistol to Alexander Solovieff with which he attempted to assassinate the Emperor of Russia is a medical doctor from Weimer, Germany, who is also proven to have procured poison with which Solovieff attempted suicide after his failure to kill the Czar, and to have owned the horse by means of which the assailants of General Mentzikoff attempted to escape. A telegram from St. Petersburg authoritively states he has been sentenced to be hanged very shortly.

Advancing on the Zulus.

CAPETOWN, via MADEIRA, June 17.—Troops have commenced to advance from Fort Pearson to Fort Chelmsford, and a junction has almost been effected with Colonel Wood, who is also advancing. The rumor that an armistice had been agreed to is not confirmed.

Lord Chelmsford's dispatch to Sir Bartle Freve, of June 6th, stating that pending King Cetywayo's answer there would be no military operations, apparently means only that the Zulus will not be actually attacked; pending the receipt of Cetywayo's answer, as all accounts agree, that the advance has commenced.

Decay of Fortifications.

LONDON, July 7.—A dispatch to the *Times* from Vienna says the walls of the fortresses at Widdin, Silistria, Rustchuk and Varna, have been destroyed and the earth works are left to the operation of the weather.

A dispatch to the *Daily News*, from Paris, says the authorities have interdicted a great meeting at Bordeaux, Alhamberia, where M. Blanqui was advertised to speak.

A Canard.

LONDON, July 7.—A report telegraphed by the Paris correspondent of the *Times* of the sinking of a a steamer and loss of fifty-three lives in a hurricane on the river Daubs in France, was published in the *Journal De Jura* without date or other details, and its authenticity is doubtful.

Codifying Army Regulations.

WASHINGTON, July 7.—Secretary McCrary has issued an order placing Adjutant General Townsend in charge of the work of codifying the army regulations under a recent act of Congress. A statement that Colonel Roberts, of Louisiana, has been placed in charge of this work is not correct.

Railroad Accident.

SCRANTON, PA., July 7.—A train on the Delaware, Lackawanna & Western Railroad ran into the rear of a coal train near the Water Gap last evening, killing James O. Brown, conductor of the coal train, and slightly injuring two others.

Specimens of Catawba County Farming.

Newton Enterprise.

One of our most successful farmers, Mr. Robert P. Reinhardt, was in town one day this week, and in conversation with him we learned that his wheat crop this year will amount to at least 1,200 bushels. Mr. Reinhardt produced this on 78 acres of land, which is an average of 15½ bushels to the acre. Mr. Reinhardt also raised about 600 bushels of oats, and expects to gather a large corn and cotton crop this fall.

Mr. Sidney T. Wilfong, another of our practical farmers, had his wheat crop threshed out Monday. He raised on 42 acres 620 bushels of wheat, which is an average of nearly 15 bushels to the acre.

Fire at Port-au-Prince.

KINGSTON, Jam., July 4—Advices from Hayti say Port-au-Prince is in flames. Business is suspended. Blocks of buildings are in ashes. The custom house is closed in consequence of the revolution.

KEOGH

And His Crowd Making a Bitter Fight for the Ascendency.

WASHINGTON, July 6.—Now that the President has a temporary respite from the annoyances and discomforts caused him by the wars of the office holders and office seekers in Maryland, he finds that he must go through a similar ordeal from North Carolina. A war between the ins and outs is raging in that State with much bitterness. The main point apparently at issue is that the outs complain that the offices are mostly filled by carpet baggers and the native-born Republicans have not a fair show. It is believed, however, that deeper than this is the question as to who shall succeed in controlling the delegation from North Carolina in the next National Republican Convention. Mr. Thomas B. Keogh, who has been chairman of the Republican State Committee for a number of years, and who has always exercised more influence over the politics of the State than any other man of his party, is said to be first for Grant and after Grant for Conkling. The Federal officials in North Carolina are with some exceptions the close friends of Mr. Keogh, and are understood to be in accord with him in regard to the next Presidency. United States District Attorney Albertson is said to be the leader of the wing opposed to Mr. Keogh, and in favor of Secretary Sherman as the next Republican nominee.

The President, who it is generally acknowledged favors Secretary Sherman's aspirations, has been interviewed to an alarming extent, and it has been sought to impress upon him that the interests of the Republican party in general, and of Mr. Sherman in particular, would be much subserved by the ejection of Keogh's friends from the offices and the substitution of natives with Sherman predilections. Among those whose decapitation is particularly desired is Mr. Powers, the collector of internal revenue at New Berne. The friends of Keogh assert that he is not anxious about remaining at the head of the State committee, and that he has several times offered to resign, but that the better portion of the native Republicans put him there and want him to stay there. Owing to the peculiar manner in which the Republican politics of North Carolina are run the chairman of the State committee exercises a very important influence in the make-up of the delegation to the national convention, and hence the friends of Sherman will consider it a great victory if they can get Keogh's friends put out of office and dispossesses him of the chairmanship. When it is considered that the Southern delegations in the convention will in all probability control the nomination, it is not to be wondered that there is working and plotting to get hold of the machinery.

The Coldraine School.

COLERAINE, Bertie Co., N. C., July 2.—The closing exercises of Miss Mary Jordan's school here Monday evening, was an event of considerable interest in our quiet village. A large crowd had gathered before nightfall and when the exercises began the commodious Academy was filled to its utmost capacity. The house was decorated with evergreens and brilliantly illuminated. The stage was dressed in snowy whiteness and the graceful curtains were sprinkled over with green leaves and flowers in rich profusion. The "memorial celebration" was the chief attraction. Mr. Newbern in a neat speech explained why it was put off until this occasion. After he had concluded a solemn march was played on the piano and the 'little ones' marched around a beautiful cross and formed into a semicircle. Then came that pathetic song, the "Officer's Funeral," that touches the tenderest chords of the heart and awakens memories of those who have pitched their tents above the din and roar of battle. Appropriate speeches were made by the boys and girls praising the heroic actions of our "fallen braves." While some recounted their brilliant achievements, others bade us cherish their hallowed memories in our "heart of hearts," and to emulate their patriotic ardor, their devotion to constitutional liberty and sublime resignation to defeat. It was a beautiful spectacle, and one that thrilled with joy and sorrow every Southern heart! The speeches were interspersed with suitable music. As a funeral march was played the children passed slowly around the cross and hung upon it their lovely wreaths of flowers. This closed the entertainment. Calls were then made for Mr. Robert Winston, who came forward and paid a touching tribute of respect to the valor and glory of Southern soldiers. As this was his maiden effort since he returned from "Chapel Hill," we bespeak for him a brilliant career. Colonel S. B. Spruill next responded to the calls of the house in an impassioned burst of eloquence, that characterises him whenever the occasion demands it. His speech called forth prolonged applause. Every one returned home well pleased. We hope Miss Jordan's school will continue to flourish, as she is an exemplary lady, who not only cultivates the intellect but instills into the hearts of her pupils Christian virtues.

JOSEPHUS.

Married at Ninety-Eight Years.

Montreal Witness.

George Lessard called upon Mr. Desnoyers a few days ago, to claim his pension due him for his services in the war of 1812. He is 99 years of age, and hale and hearty. Four times has he been married; with his first wife he lived thirty-three years, when she died; he married his second wife, who died within a year; his third marriage was more fortunate, and, after thirty-one years of happiness, she also departed this life. Last year, for the fourth time, the old veteran entered the matrimonial state, and he appears perfectly contented with life.

Reviving a Dead Law.

The Secretary of the Senate has refused to pay Sharon his salary upon the ground that he has "done the State no service" for it, having been absent nearly the whole time of both sessions. This is a righteous decision and we earnestly trust it will be extended to all other voluntary absentees and shirkers who, after being duly elected to represent their constituencies, prefer the pursuit of their own personal gains and projects to their public duties, and only make use of their position for their individual interests and emoluments.

OHIO.

TO THE VICTORS BELONG THE SPOILS.

The Democrats in Office to Walk the Plank--Ex-Gov. Young's Talk with Hayes and Thurman.

WASHINGTON, July 5.—Ex-Governor Tom Young, of Ohio, was in Washington this week on very important political business, relating chiefly to the management of the Ohio campaign.

In an interview with President Hayes and John Sherman, he said the campaign would be one of the most closely contested known in the history of politics. He insisted that the administration should set aside the "sentimentalism of civil service reform and other impracticable theories which have disheartened the active men of the Republican party," and President Hayes assured him that the Administration would render the Republicans of Ohio and all other States holding elections this fall all the aid in his power. Governor Young is also reported to have pointed out to the President and Secretary Sherman that the first step toward practical aid to the Republican party should be the "purifying of the departments and the Federal service everywhere of the Democratic and lukewarm material now holding office," and asserted that the policy of the Republican party in preferring its enemies to its friends is operating disastrously throughout the country, and that since the Democratic party, as illustrated in the House and Senate, has revived the theory that to the victors belong the spoils, it should be the duty of the Republican party to stand by its friends. After the interview it was given out to the newspaper men, by authority of Governor Young, that the process of clearing out all Democratic office-holders will begin at a short date, and that such a course is indorsed by every member of the Republican campaign committee.

The news has created some stir in the Departments where a number of Democrats are in office.

The Atlanta Cotton Mills.

Baltimore Sun.

The first cotton mill built at Atlanta, Georgia, was put in operation on Tuesday of last week. It was made the occasion for a celebration of the event, Gov. Colquitt and the mayor of Atlanta and many citizens participating in the proceedings. The mill, whose opening has been the cause of so much rejoicing in that city, is fitted with the best machinery that Northern mechanics could turn out, and has been built and equipped to manufacture "standard brown goods," including sheetings, shirtings and drills; the yarn for all grades being the same, the difference in the goods being produced by the loom. It is capable of consuming 19,000 bales of cotton annually, and its annual production of manufactured goods when in full operation is put at 23,400,000 yards. The machinery put in practical operation on Tuesday will manufacture about two-fifths of the quantity mentioned, and will give employment to four hundred and twenty persons. In plain cottons, the Southern mills already established have done well. The Georgia mills, especially those on the Chattahoochee river, have been very prosperous for years, and even during the last five years, while the New England mills have been losing money from the shrinkage in values, made large profits. The same may be said of the mills at Grantsville, on the Augusta and South Carolina railroad, fifteen miles from the former city and five miles from Aiken. Indeed there has been no instance where cotton mills at the South; under good management, have failed to pay large dividends to their stockholders. For some kind of cotton goods the South is not only beginning to supply her own people, but is pushing northward to compete with New England in her own market, and has made some experimental exports to Europe. The goods of the Mississippi-Wesson mills are in demand in New York and Boston, and they bore off honors at the Paris exhibition of 1878. The South can manufacture certain kinds of goods more cheaply than at the North. The reason is not far to seek. New England has to carry her raw material to her mills, fifteen hundred miles distant. The South sets her mills in the midst of her cotton fields, and thus saves the difference between the cost of transporting the raw material and that of the same material when manufactured. She saves also the charges in commissions to factors and middlemen, while her mill operatives in that climate can work for lower wages, because the cost of living is lower; and there is a further gain to the Southern mill owners in the fact that their operatives work a greater number of hours weekly than they do in New England.

In this connection it is interesting to note that the Augusta (Ga.) cotton factory for the fiscal year ended 14th of June last paid a dividend of 8 per cent. on its capital stock, after paying for repairs, taxes, etc. Its gross earnings for the year amounted to $112,111, and the company has now placed to its profit and loss account $267,157. The bonded debt of the company was also reduced $18,000 during the year. During that time 11,946 bales or 5,447,403 pounds of cotton were consumed, which produced 14,769,782 yards of goods. The average number of hands employed was 666, whose wages during the year aggregated $155,920. The sales during the year aggregated $832,606.

A Feminine Question.

Scribner for July.

A lady who had had much experience in teaching both boys and girls, speaking of the extraordinary obtuseness of s certain pupil, said:

"In a physiology class, this young lady of fifteen inquired with languid surprise, '*Is* there not a straight passage through the head from one ear to the other?' A somewhat natural conclusion," the teacher commented dryly, "if she had ever watched the processes of her mind."

"Which would you prefer teaching," asked a visitor,—"boys or girls?"

"Boys, infinitely," was the prompt reply.

Leach at Hendersonville.

Charlotte Observer.

The next speaker was Hon. Jas. M. Leach, of Lexington, who is almost as well known as any public man in the State. Leach is a whole team, and if we had never heard him before, we should say that railroad speech-making was his *forte*; but the truth is that he can talk about pumpkins and squashes at an agricultural fair; he is a forty-horse power in a political fight; in the halls of Congress in debate he has proved himself a match for some of the brightest minds in the United States; and now has a hankering for making an inauguration speech in Raleigh on the 1st day of January, 1881.

First and Second-Class Mail Matter.

The Post-Office Department is about to incorporate in its new regulations an order likely to materially reduce the postal revenues. Some years ago there was a law passed authorizing the sender of a paper to place upon it some device or inscription to indicate the sender of it. Under this law a ruling has been made which will allow a very large amount of matter hitherto considered matter of the first-class to go at rates chargeable for third-class matter, or for eight cents instead of ninety-six cents per pound. This includes a large amount of insurance and banking business, and generally would permit a great many business blanks in which there is little or no writing to go at the cheap rates. One postmaster of an eastern city has already protested against this proposition, claiming that it will result in the loss of $200,000 to the postal revenue from his office alone.

DOMESTIC SURGERY.

A Son and Daughter Perform a Difficult and Dangerous Operation on their Mother and Save Her.

Cumberland News.

We have just have come into possession of facts of a remarkable circumstance which occurred in this vicinity some time since. A middle-aged lady, who resides near Wellers, Pennsylvania, a few miles from this city, whose name is omitted by request of friends, was afflicted by that terrible disease, scrofula, the seat of the disorder being in her head. She suffered terrible agony from the presure of the diseased cranium upon the brain, and her physician decided that the only means of relief was the removal of the top of her skull. He never attempted the operation, however, fearing she might die from its effects. The woman continued to suffer, and her son, who was afflicted with the same disease, determined to take the risk and perform the operation. He was considerable of a mechanical genius, and he soon constructed a fine saw for the purpose, the material used being wire from an old hoop skirt. After he had finished the instrument, although he had no surgical knowledge he began the operation of sawing through the skull about two inches below the summit of the cranium.

After working some time at the operation the young man was taken ill and died. After his death the lady's daughter, a young lady of nineteen or twenty, decided to continue the work, and did so, succeeding in removing the the top of her mother's head, relieving the terrible pain, and probably saving her life. She was occupied several days in the operation, which was a delicate and dangerous one, ordinarily only to be performed by the most skillful surgeons. If the improvised instrument had been driven too deep and penetrated the delicate covering of the brain, instant death would have resulted, and that some accident of the sort did not occur is one of the most astonishing facts about the matter. She undertook the operation as a desperate resort, and the exercise of nerve which sustained her was wonderful. Once while working she fainted, and frequently she would throw down the saw, declaring she could go no farther. Her mother, whose enormous will power was not less wonderful, always urged her to proceed, saying. "If I can stand it you should do the same, as it is the only way of saving my life." No anæsthetic was used, and the afflicted woman carefully watched and directed the operation.

As stated, instantaneous relief followed the removal of the diseased bone, although the disease was not eradicated. The removed bone was replaced by a silken cap, carefully fitted. The operation was performed over six months ago, and the lady, was at last accounts, alive and cheerful, though of course confined to a limited sphere of action. She took a philosophical view of the affair, and seems grateful that relief was afforded, although she will remain an invalid for life. The case is certainly a remarkable one, and if the facts were met with in a work of fiction, the story would probably be regarded as a clever but far-fetched fabrication "out of the whole cloth." But the case is well authenticated, and we have stated the facts without addition or change as we obtained them from a reliable source.

Mint Julep.

The following graphic description of a mint julep is from General Dick Taylor's book:

It was a fine old mansion, surrounded by well kept grounds. This immediate region had not yet been touched by war. Flowering plants and rose trees in full bloom attested the glorious wealth of June. On the broad portico, to welcome us, stood the host, with his fresh charming wife, and a little retired, white-headed butler. Greetings over with host and lady, this delightful creature, with ebon face beaming hospitality, advanced, holding a salver, on which rested a huge silver goblet, filled with Virginia's nectar, mint julep. Quantities of cracked ice rattled refreshingly in the goblet; sprigs of fragrant mint peered above its broad rim; a mass of white sugar, too sweetly indolent to melt, rested on the mint; and like rose buds on a snowbank, luscious strawberries crowned the sugar. Ah! that julep. Mars ne'er received such tipple from the hands of Ganymede.

Musings of the Soul.

BY HIRAM V. PAUL.

'Tis from the deep impassioned sigh,
The trembling lip and wistful eye,
And from the tears that sometimes start,
We read the language of the heart.

A look or smile perhaps the last
Bright, glorious sunbeam of the Past—
Reflects from Memory's Casket fair
Some dear and lovely pictures there!

How words of love do e'er prolong
Our Memory's sweet tho' voiceless song,
And fills the heart with nobler aim
Than fickle earthly pomp and fame.

The heart clings to each soft refrain
Which struggles back to life again
From songs of yore—sweet halcyon youth—
In all their innocence and truth.

Oh, when life's paths grow dark and cold,
And hope shall languish in the soul,
Sweet voices from the sacred past
Cheer up and light the darkest blast.

And when the tongue grows chill and weak
And loving lips no more may speak,
A look of yearning tenderness,
A warm, impassioned farewell kiss,
Do utter meanings, words, in vain,
Forever struggle to explain!

THE DENTAL ASSOCIATION

THE FIRST CONVENTION OF THE STATE DENTAL ASSOCIATION.

Interesting Proceedings of Professors of Dental Surgery Associated Under the Recent Legislative Act.

On Tuesday morning last the first annual Convention of the State Dental Association, as constituted by act of the General Assembly, was held in the Senate Chamber of the Capitol. It has been held, and rightly too, not alone in North Carolina but in other States of the Union, that there should be some safeguard for the profession as against quackery and inefficiency in the practice of dentistry. Accordingly, the Legislature created this association, and the body was clothed with power to choose a State Board, which was to be invested with the sole power of passing upon the merits of all applicants for license as dentists in this State. Under the workings of the old system the matter of efficiency in dental practice had become a crying evil. It was a matter of necessity that it should be stopped. The State of New York has recognized similar facts, and at its last session passed an act of the same import, so that it will be seen that our local dentists have been none too quick in action on this matter.

The Association was called to order by the president, Dr. E. L. Hunter, of Enfield. After a prayer by Rev. Dr. Marshall, of Christ Church, Raleigh, the roll was called, whereupon the following officers and members were found to be present:

Dr. E. L. Hunter, Enfield, president; Dr. D. E. Everitt, Raleigh, first vice-president; Dr. Isaiah Simpson, second vice-president; Dr. W. H. Hoffman, Charlotte, secretary; Dr. J. H. Crawford, Raleigh, treasurer; Drs. J. W. Hunter and C. J. Watkins, Salem; M. A. Bland, Charlotte; B. H. Garrett, Richmond; V. E. Turner, Raleigh; R. H. Jones, Bethania.

The minutes of the last annual meeting were read and adopted.

The names of Drs. F. S. Harris, Henderson; J. D. Clark, New Berne and F. C. Frazier, Trinity, were presented by a committee of three, as candidates for admission, and upon ballot they were declared regular members of the Association.

The President then delivered his annual address, which was replete with valuable suggestions and gave encouragement to those members of the profession who are seeking to elevate it. In the course of the address Dr. Hunter referred to the late Professor J. H. McMillan, of Philadelphia, as an illustrious member of the profession, and held him up as an example.

On motion an election was held to select the State Board of Examiners, in compliance with the requirements of "An Act to regulate the practice of dentistry in the State." The election resulted as follows: Drs. Vines E. Turner and J. W. Hunter were chosen for the long term of three years; Drs. E. L. Hunter and D. E. Everitt for the term of two years; Drs. M. A. Bland and W. H. Hoffman for the term of one year.

After sundry reports of committees had been submitted, Dr. J. W. Hunter read an interesting paper on "Dental Education," which was discussed by Drs. Hunter and Everitt.

Dr. R. H. Jones also read an able paper on the same subject, which was discussed by Drs. Turner, Crawford and Watkins. A valuable paper was read by Dr. M. A. Bland on the "Reflex Action of the Nerves."

The subject of "Operative Dentistry" was taken up and discussed at some length.

Dr. D. A. Robinson read an interesting paper on the best mode of filling teeth, materials used, etc. This paper was ordered to be filed, as were also all the others submitted previously. A lengthy discussion of the paper began, participated by Dr. Turner, President Hunter and others, in the midst of which the Association adjourned until 9 a. m., Wednesday.

SECOND DAY'S PROCEEDINGS.

WEDNESDAY, July 2.—The president called the Association to order at 9 o'clock. Drs. R. H. Joyner, of Wilson, R. T. Couch, of Oxford, reported and were admitted.

The discussion of Operative Dentistry was resumed, and remarks were made by President Hunter and Drs. Robertson, Turner and J. W. Hunter.

An instructive paper on "Dental Chemistry" was read by Dr. Isaiah Simpson. A discussion followed the reading of this paper, upon that part of it which related to the use of sulphuric acid as a remedy for caries of the bones, participated in by Drs. Crawford, Griffith and J. W. Hunter.

Dr. Simpson also read an ably prepared paper on "Dental Hygiene," for which he received a vote of thanks.

A committee of three, Drs. J. W. Hunter, V. E. Turner and F. S. Harris, was appointed to prepare a circular of instruction to parents upon the care of the teeth of children. The committee was instructed to report the result of its labors at the next annual meeting.

The Association then adjourned until 3 p. m.

AFTERNOON SESSION.—The Association was called to order by the president. Dr. Richard W. Lewis, of Raleigh, and Dr. J. E. Matthews reported, and were admitted.

The committee on "Mechanical Dentistry" not being present, Dr. D. E. Everitt exhibited to the Association a cast of the mouth of one of his patients treated for cleft palate, and also gave a description of the obturator used. The patient prior to the operation was unable to articulate with sufficient distinctness to be understood even by her mother, but after the use of the obturator her articulation was so greatly improved that she was able to pursue her studies with comfort to herself and satisfaction to her instructors.

The discussion of "mechanical dentistry" was renewed, and remarks thereon were made by Drs. Vines E. Turner and J. W. Hunter.

The committee on material and appliances used by the profession in practice was called upon to report, when Dr. F. J. Griffith, the chairman, read an interesting paper on gold amalgam, tin, gutta percha, impression materials, late inventions of chairs, engines, etc.

President Hunter entertained the Association with a description of his method of treating exposed pulps, etc., after which a general discussion of the modes of treatment of exposed nerves followed pending which the Association adjourned until evening.

EVENING SESSION.—Association called to order by the president.

The committee on "Dental Pathology and Therapeutics" not being ready to report, the chairman, Dr. D. E. Everitt, reported a case of necrosis together with its treatment and cure.

An important case of diseased autrum was reported by Dr. J. H. Crawford, and others by Drs. J. H. Hunter and Watkins.

The election of officers was held, resulting as follows:

Dr. D. E. Everitt, President.

Dr. Isaiah Simpson, 1st Vice President:

Dr. D. A. Robertson, 2d Vice President.

Dr. W. H. Hoffman, Secretary.

Dr. J. H. Crawford, Treasurer.

The committee appointed to report on that part of the President's address which related to the late Professor J. H. McQuillan, of Philadelphia, made a verbal report through Dr. V. E. Turner, in which the life and character of the deceased gentleman were highly eulogized.

Adjourned till Thursday moruing,

THIRD DAYS' PROCEEDINGS.

THURSDAY, July 3.—Association was called to order by the president.

A clinic was held by Dr. J. H. Crawford at his office.

The installation of officers being in order the president elect was conducted to the chair by Drs. E. L. Hunter and F. C. Frazer. Dr. Everitt on taking his seat returned thanks in a neat speech.

On motion the treasurer was instructed to pay to the widow of the late Professor J. H. McQuillen, of Philadelphia, the sum of $50 as a slight token of esteem in which Professor McQuillen was held by the dental profession of North Carolina.

On motion the secretary was authorized by the Chairman of the McQuillen committee in this State to collect all funds contributed to the McQuillen Memorial of Philadelphia.

The time and place of meeting being next in order, Raleigh was selected as the place, the time first Thursday in June, 1880. The delegates to the National Convention, which convenes in Augusta, Ga., July 8th, are instructed to invite said Association to meet with us at Raleigh, and if the invitation be accepted the secretary shall inform all the members of the time and place of meeting.

The following committees were appointed for the ensuing year:

Executive Committee.—Drs V E Turner, J H Crawford, J W Hunter,

Dental Education.—Drs Isaiah Simpson, J D Clark, F C Frazer.

Physiology.—Drs V E Turner, B H Garret., H W Robinson.

Operative Dentistry.—Drs M A Bland, J H Crawford, R F Robertson.

Dental Pathology and Therapeutics.—Drs E L Hunter, J E Matthews, R T Couch.

Dental Chemistry.—Drs D A Robertson, J H Durham, C J Watkins.

Mechanical Dentistry.—Drs J F Griffith, R H Jones, F S Harris.

Material and Appliances.—Drs J W Hunter, J Lowenstein, L N Durham.

Clinical Operrtors.—Drs W H Hoffman, R H Jones, F S Harris, C J Watkins.

The Treasurer's report being called for, that officer made the following exhibit of the finances:

Amount on hand at last report	$178.60
Amount received for admission fees, 1879	15.00
Amount of annual dues	82.00
	$275.60
Amount paid out per vouchers	71.08
Balance on hand, July 3, 1879	$204.52

Resolved, That the thanks of the members of this Association are due and are hereby tendered to the officers of the different railroads for their liberality in passing the members of the Association over their roads at reduced rates:

To the proprietors of the hotels in the city for their kindness and hospitality;

To Colonel Turner, the keeper of the capitol, for the use of the Senate chamber:

To the brethren of the city for their kindness and generosity in offering every facility to make our stay pleasant.

Also, a vote of thanks to Mr. J. W. Selby, of Johnston Brothers, of New York, for the beautiful display of instruments and materials, and his uniform kindness in that department.

Also, that the sum of ten dollars be paid the janitor of the Senate chamber for his services, including incidental expenses.

The Board of Examiner elected by the Association in accordance with the recent act of the Legislature regulating the practice of dentistry in this State, met and the following officers were elected; Dr. Vines E. Turner, chairman; Dr. D. E. Everitt, secretary. The Board to convene for the examination of applicants on the evening previous to the annual meeting of our Association.

On motion, the Association adjourned,

D. E. EVERITT, President
W. H. HOFFMAN, Secretary.

Goodies.

To prevent pie paste from soaking the liquid contained in the filling of the pie, glaze the under crust with a beaten egg.

BUTTER SPONGE CAKE.—Fourteen eggs, the weight of the same in sugar, eight ounces of flour, six of butter and the juice of three lemons.

BAKERS' GINGER BREAD.—Three-fourths of a pound of flour, one quart of molasses, one-fourth of a pound of butter, one ounce of saleratus and one ounce of ginger.

FOR TAKING OUT SCORCH.—If a shirt bosom or any other article, has been scorched in ironing, lay it where a bright sun will fall directly on it. It will take it entirely ont.

CHOCOLATE JUMBLES.—One cupful of butter, two of sugar, three of flour, four eggs, two cupfuls of grated chocolate, three teaspoonfuls of baking powder, a little salt; roll thin.

To make candied lemon or peppermint for colds; boil one and one-half pounds of sugar in a half-pint of water till it begins to candy around the sides; put in eight drops of essence; pour it upon buttered paper and cut it with a knife.

BREAKFAST CAKE.—Take some rice that has been boiled soft, twice as much flour as rice, a litttle fine Indian meal and a little yeast. Mix it with cold water, and let it rise over night. This will make a fine biscuit for breakfast.

MILDEW.—Moisten the milldewed spot with clear water, then rub over it a thick coating of castile soap. Scrape chalk with the soap, mixing and rubbing with the end of the finger. Then wash it off. Sometimes one coating suffices, but generally several are required.

RICE PIE.—To a pint of boiled rice add a pint of rich cream, two eggs, salt and a little mace. Let these ingredients be well mixed, spread half the quantity in a deep baking dish, lay pieces of chicken upon it and cover them with the remainder of the rice and bake it in a hot oven.

STEWED CABBAGE.—Shred a small cabbage as for cold slaw; boil in water for twenty minutes, then drain thoroughly and cover with sweet milk. Cook until tender, season to taste with butter, pepper and salt, and just before serving add the yolk of a beaten egg mixed with a little sweet cream.

Give us a Rest.

Nashville Banner.

What the South now wants is peace, and the opportunity to make both ends meet. Our lives are laid in heavy places, but we have no desire to renew a quarrel from which we have nothing to gain and everything to lose.

Vassar College celebrated the glorious 4th of July tho first event on the programme being the chewing of one hundred of sticks gum at sunrise.

MR. WILLIAM ARP'S

RUMINATIONS ON THE FOURTH OF JULY.

He has Trouble with His Friend Rawlins, who Fails to See the Beauties of our Reconstructed Union.

Atlanta Constitution.

I was just ruminatin over the 4th of July. It's a good thing. There's a sweet memory about it, an elevating sentiment, that is to old folks who used to shoot guns, and twist twine balls, and blow horns and kick up a dust when we were boys; and we always had one feller to read the declaration, and another to make a spread eagle speech, and then everybody went somewhere and got a big dinner. Well, we have been trying for several years to git back into the old ruts, but somehow or other the 4th of July and the old flag and the bird of liberty, and the high poles have all got mixed up together with yankee muskets until they have lost their virginity and we can't tell tother from which. There's nothin' settled. Nobody knows whether we are one great big nation or forty-four states. Nobody knows where States rights end and federal power begins. I wish it was settled. Its curious how things have changed. On the 7th day of June, '76, the colonies met together and tried to cut loose from old England, but they couldent quite do it. South Carolina wouldent go. She was the most loyal of all the colonies. She said the provocation wasent sufficient. She dident drink tea and dident feel like raisin such a hellibillo over a little tax on it. Howsomever, they called another meet'ng on the Fourth of July, and South Carolina said she would stand by her sisters, and she did—that's history. She stood by them until some of them treated us a heap worse than ever old England did, and she was the first to rebel. Like our fore-fathers, we all rebelled, and we got whipped just like they didn't.

Now we've all got back into the old Union, and are doing our level best to forgive and rally around the old flag and raise liberty poles and shoot up the Fourth of July with powder guns, but they won't let us. They keep peggin away at our treason and calling us traitors and rebels, and appropriating all the patriotism, and won't allow us to have any, and so we are getting so we don't care a dogon about it, and it's a powerful strain to get up a 4th of July sensation with a boom to it. Sugar is a good thing, but you can't make a game child eat it by whippin of him. Says I to my friend Rawlins, "I see you are raisin a liberty pole here in Rome and are going to elevate the stars and stripes."

"Yes," says he, "some of em are, but I ain't. I used to love the old flag; but they've been trying so long to stuff the darn thing down my throat with a ramrod that it makes me sick at the stomach to look at it. They begun it fifteen years ago and have kept it up ever since. They look upon loyalty as a medicine for us to take—and we keep takin on it all the time and hollerin hurra for the union, and they cuss round and swear we didn't take it or hadn't swallered it and was goin to spit it out or throw it up, and so we have to take some more and keep takin' it until by golly, we are all sallivated—dad-blast em. We had a post commandant here in '65—a furriner—a sort of Frenchy Spanyard or Spanish Frenchyard, I am not certain which, and his name was Capt. De la Mesa. Well he stretched a flag across the side-walk to make our folks walk under it, but they wouldn't do it. When the women got most to it they just stepped out in the street and walked round. Then the old Spanish dirt-dauber made a bigger one and stretched it clean across the street, and our folks had to go clean around the square. I wish Thornton had have cut his throat when he had a chance, for the old villen was never satisfied unless he had some of our people under arrest. You see, he went out to Thornton's house with a couple of Dutchmen to arrest him and make him pay some money to a nigger he didn't owe, and Thornton had been robbed of everything, and it made him so mad he seized the blue coated devil by the throat and backed him up against the side of the house and opened his big jack knife with his teeth and would have killed him if he hadent begged for his life so piteously. Them Dutch soldiers threw down their guns and ran two miles without stopping—well he never bothered Thornton any more. No, sir; I'm like Wm. Tell about that flag. I'm not going to take off my hat to it narry time, until they let us alone. Why, I cant take up a newspaper that aint got some devilish lie or insult in it, and it looks like all the patriotism that was ever in me has dried up and blown away."

Now, what's to be done about it. I would like to harmonize my friend Rawlins, and reconstruct him, but I dont believe I can do it. Somehow or other he gets the advantage of me in the argument, and I dont know what to say next. I wish you would get some reconstructed statesman or offisholder to fix me up a little speech for such folks as Rawlins, and I'll try him again about the next fourth of July. If the democrats elect their president next year it will help things powerfully. I believe we can harmonize the women on that.

BILL ARP.

P. S.—My good friend, Tom Ware, of East Point, has sent me a shepherd's dog pup, and now me and Harris will compromise, for I don't reckon he has got anything against that breed of dogs. Tom Ware is a peacemaker.

The Ohio Prospect.

Senator Pendleton, in the N. Y. World.

"In Ohio we have the strongest hopes of carrying the State. All that industry, effort and determination can do will be done, and I think it will be successful. The Democratic party is thoroughly united in all sections of the State. Our candidates will command the votes a of very large majority, and probably of three-quarters of the Greenback party. The prospect is very favorable, but we poll more than six hundred thousand votes, and the margin between the party is small. I think we shall succeed. The questions made prominent by the extra session that we have already talked about, make Ohio the chief battle ground in the campaign of 1880."

A Remarkable Freak of Nature.

Bellefontaine (O.) Dispatch to the N. Y. Herald.

Mrs. Mary Crevistan gave birth this morning to a female nondescript exactly resembling a frog. The head extends directly from the shoulders, there being no neck. The face is on top of the head, with mouth, eyes and nose an exact counterpart of the frog's. The arms and legs are immovable in the position assumed by that animal when swimming, the hands and feet being exactly similar and terminating in long claws. The case is creating great interest here.

DAILY NEWS

HUSSEY & JORDAN, PROPRIETORS

JOHN B. HUSSEY, - - Editor.

TUESDAY, - - - - - - JULY 8, 1879.

THE SCHOOL BILL.

The *mandamus* to compels speakers Robinson and Moring to sign the school bill was ably argued before Judge Eure in Wake superior court yesterday.

At this writing we are not advised as to Judge Eure's ruling, but in any event the case will be appealed to Supreme court with a view to a final decision by that tribunal at the present term. It has a deeply interesting character as a legal question, and certainly it is a question that deeply concerns the people of the State.

There has been some correspondence in the NEWS during the absence of the editor reflecting upon Senator Robinson and Mr. Moring personally. It is hardly necessary, we hope, for the writer to disclaim any sympathy with, or responsibility for the opinions therein expressed. That so important legislation to the whole State must fail for want of the Speakers' signatures is a matter of profound and universal regret, and none feel it more keenly, we are persuaded, than the honorable gentlemen immediately concerned.

THE OLD BONDS.

North Carolina is trying to fund her State debt in new thirty-year 4 per cent. bonds, but does not succeed very well. Less than $2,000,000 of the old debt of $30,000,000 has been sent in for funding.—*New Orleans Democrat.*

It is a small mistake of one million the *Democrat* makes, but it is well enough to correct it. Three millions of the bonds, which constitutes one-fourth of the recognized debt of the State, has been sent in for exchange, and in lieu three hundred and fifty thousand new bonds have been issued, and on the return of the certificates the Treasurer will issue the remainder. We only wish that Louisiana was so well off financially. Before Treasurer Worth's term of office expires, if it ever does, the old State debt will be wiped out, and our escutcheon will be free from the blemish of repudiation, too.

Now comes the most marvelous discovery of this most progressive age. The London correspondent of the *New York Times* tells how an eccentric old man by the euphonious name of Binns, a manufacturer at Low Moor, Bradford, in Yorkshire, England, has invented machinery which requires little else than the motive power of a steam engine to keep it in motion until it meets with an accident or is worn out. It is self-feeding, self-taking up and self-acting, and all night long, while the mill is locked and the few day operatives sleeping, the machines keep up their incessant clatter, turning almost numberless yards of silk and woolen cord which is used in new trimming goods. It is represented that, with these machines, a girl, who acts as cleaner and collector, on a salary of four dollars per week, can in that length of time, produce cord goods of five hundred dollars' value, and cotton and woolen yarn goods of ten times that value. The principle which is the basis of this improvement is that of the endless spindle band, ingeniously applied. It is said that English spinners have quite generally adopted this band, and that it is of easy adaptation to any spinning frame.

THERE is music in "the old man's" voice. The ex-*de jure* President of the United States writes a Fourth-of-July letter to Tammany:

"NEW YORK, July 2, 1879.—Hon. Augustus Schell. Dear Sir—My arrangements have been made for some time to be absent from town for the remainder of the current week. I am none the less obliged to you for your invitation, to be present at the celebration of our National anniversary by the Tammany Society on the Fourth inst., and for the reasons so admirably stated in your invitation. I fully concur with you in regarding this anniversary as an occasion of exceptional interest to every patriotic citizen." Ex-Governor Joel Parker, of New Jersey, wrote "that the President, and they who counsel and sustain him, have disregarded the doctrines taught by the Declaration of Independence. They have sought to make the military power superior to the civil power, and to infringe upon the freedom of the ballot. The Radical leaders feel that power is slipping from their hands, and in their desperation they see that the retention of these arbitrary laws is a possible means of success, and hence the long and bitter fight in Congress. I have faith that ere long the people will fully understand the true motive of the recent action, and espouse the cause of Democracy and free government in such overwhelming numbers that no amount of fraud or force will avail to defeat their will."

DESPITE disquieting rumors respecting the crop prospects, the best reports are very encouraging. The acreage of cotton is 2 per cent. greater than last year, while the condition is 3 per cent. below. The general testimony received from the Northwest is that the wheat crop promises to be as extraordinary as that of last year. The general reports regarding corn are not so favorable, but corn is made during July and August. In the South the season promises to be good. The crops of wheat, rye and oats are the largest ever made, the planters are working within their means, have few debts, and with low taxation and security from pillage, will make money in spite of low prices.

THE Greensboro (N. C.) *State*, which is described as a Democratic paper, is reported as saying: "It is a sad fact for this worn out and famished State that of the thousands of men who came thither, invested their means, and attempted to make homes under Republican rule, to-day but few remain. At the loss of their all, they have wandered away to seek a home where they can speak their sentiments and vote as they deem best, without subjection to insult, abuse and villification of such men as Governor Vance. Immigrants from all countries and all States pass North Carolina by. The carpet-baggers lose all rather than remain, and many of her own sons seek in States, where schools, the polls and speech are free, a new home." We should like to know whether this is an exaggeration, or wholly untrue. It is the first that we have heard of anything of the kind, and it is hard to believe that honest, *bona fide* immigrants of any class are badly treated in any Southern State. What have the Charlotte, Wilmington and Raleigh newspapers to say about it?—*Charleston News and Courier.*

The *New North State* is an ultra Radical sheet, owned and edited by a "carpet-bagger." Of course the *News and Courier* was ignorant of this fact, when it called upon North Carolina papers to rise up and answer.

THE Chicago *Inter-Ocean* confesses that the Democrats have gained during the extra session all of importance that they set out to gain:

1. Limiting the power of the President to use the military at the polls.
2. The repeal of the test oath.
3. Changing the method of drawing jurors in United States Courts.
4. Nullification of the law authorizing the appointment of deputy marshals at elections.

And by way of variety.

5. Creation of the Mississippi river commission, which is the beginning of a grand scheme of improvement of that river.
6. Removal of the duty on quinine.
7. Appointment of a yellow fever commission.

ABOUT two years ago it was that the Presidential pericardium bled for the poor African. It was a very tender heart as everybody then supposed, but we beg the Marshals and Deputy Marshals, and particularly their sisters and their cousins and their aunts, to observe that although their circumstances, threaten to be infinitely worse than those of the poor African, Hayes' heart doesn't give the slightest indication of a hemorrhage.

THE Wilmington *Star* says:

It is said that the political stewpot about Raleigh is already boiling fast and is red-hot. There are some half dozen or more candidates for Governor now busy at work, fixing their plans and setting their triggers. Each one is active and their friends are active, and the promise is that 1880 will see such another scramble for office as was never heard of, read of, or dreamt of before.

Why the persistent effort to prejudice Raleigh politicians is beyond comprehension. "It is a queer world; "it is a queer world."

Senator McDonald's Opinion about Things.

Senator McDonald left Washington a day or so before adjournment, and reached Indiana in safety, but was immediately tackled by a home newspaper, the Indianapolis *Journal*, with the following condensed result;

"What are your views as to the relative strength of Presidential candidates on both sides?" said the reporter finally.

"I still am of the opinion that I expressed some months ago, that Grant has the most strength in the Republican party, with Sherman and Blaine next in the order named."

"And as to the Democratic candidates?"

"I believe Mr. Hendricks is to-day the strongest, and has the best chances of receiving the nomination. He is regarded with greater favor in the South than anyone else who has been named."

"Tell me what States will, in your opinion, cast their votes for Hendricks in the convention?"

"Well, there is Kentucky, Missouri, Illinois"——"

"Will not Gen. Palmer have the vote of Illinois?"

"I think not. Mr. Hendricks stands a better chance of getting it than Gen. Palmer. If there was any general movement to nominate a man from outside of the Democratic party for President, Illinois might cast her vote for Senator David Davis."

"Is he still outside of the party?"

"Yes; he styles himself an Independent still."

"And as to the other States expected to support Mr. Hendricks, in addition to Kentucky, Missouri and Illinois?"

"Tennessee, I think, may be counted upon, and Texas. I have good foundation for believing that he is strong in Louisiana, Alabama, and especially so in Georgia. Then, there is Virginia."

"Both the Virginias?"

"No; West Virginia will favor Thurman, but old Virginia will be for Hendricks, and North Carolina. I don't know about South Carolina, but Florida will be in his favor. Almost the entire South are heartily in favor of silver coinage, and Mr. Hendricks suits them upon that question and all others. He has been all the time increasing his strength in the South, while Mr. Tilden has been losing ground."

"Will not Bayard have some strength in the South?"

"I have always regarded Mr. Bayard as the weakest of all the Presidential candidates. Personally, he is popular in the South, but politically he has very little strength, although Lamar, Hill and a few other influential men are his friends."

"Will he have the vote of any Eastern State in addition to his own?"

"Very likely Vermont and Rhode Island may be counted for him, but all the other Eastern States will be for Tilden. There is no doubt as to the fact that Tilden is making great efforts to obtain a renomination, but I do not think he can get the requisite votes from the South, unless it appears that he is an absolute necessity to success."

Who Gained?

St. Louis Post-Dispatch.

The Democrats originally demanded the repeal of three obnoxious laws.

First—That allowing the use of soldiers at the polls.

Second—That allowing marshals at the polls.

Third—That allowing packed juries in the South.

The Republicans originally were opposed to the repeal of any of these laws, and insisted that they must and should be executed.

The net result of the conflict just ended, however, is that neither of these laws can be executed.

The law requiring the infamous jurors' test oath in the South is absolutely repealed.

The use of the army at the polls, under any circumstances whatever, is positively prohibited, and the bill was signed by Mr. Hayes himself.

The pay for deputy marshals at elections is refused, and Congress has thrice declared that it would never recognize or pay such marshals.

In short the controversy between the President and Congress was this:

The executive said to the legislative:

"You shall make appropriations for the army and marshals at the polls; you must make them, you will make them, for I can call you together in extra session until you do so."

Congress replied: "Not one penny will we appropriate either for soldiers or marshals at the polls?"

Congress has adjourned.

Mr. Hayes declared that he will not attempt to call Congress together again.

There is not one penny appropriated for either soldiers or marshals at the polls.

It is an important precedent. The Democrats could have done better, but they certainly could have done much worse.

A teaspoonful of finely-powdered charcoal drank in half a tumbler of water will often give relief to the sick headache, when caused as it is in most cases, by a superabundance of acid on the stomach.

Talbott's Patent Spark Arrester,
THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are:

It does not destroy the draft.

It does not interfere with cleaning the tubes.

It will not choke up, and requires no cleaning.

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.

It is simple and durable, and can be relied upon.

It can be attached to any boiler.

No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power.

What Constitutes a State?

What constitutes a State?
Not high-raised battlement, or labor'd mound,
Thick wall or moated gate;
Not cities proud with spires and turrets crown'd:
Not bays and broad-arm'd ports,
Where, laughing at the storm, rich navies ride;
Not starr'd and spangled courts,
Where low-brow'd baseness wafts perfume to pride.

No; men, high-minded men,
With powers as far above dull brutes endued
In forest, brake or den,
As beasts excel cold rocks and brambles rude;
Men who their duties know,
But know their rights, and knowing, dare maintain,
Prevent the long-aimed blow,
And crush the tyrant while they rend the chain:
These constitute a State;
And sovereign Law, that State's collected will,
O'er thrones and globes elate,
Sits empress, crowning good, repressing ill.
Smit by her sacred frown,
The fiend Dissension like a vapor sinks,
And e'en the all-dazzling crown
Hides his faint rays, and at her bidding shrinks.

—SIR WILLIAM JONES.

Unheard of Bargains!

Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades,
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
Will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids you all adieu
And wishes a happy new year too,
And not forget

TUTT'S PILLS

INDORSED BY
PHYSICIANS, CLERGYMEN AND THE AFFLICTED EVERYWHERE.

THE GREATEST MEDICAL TRIUMPH OF THE AGE.

TUTT'S PILLS CURE SICK HEADACHE.
TUTT'S PILLS CURE DYSPEPSIA.
TUTT'S PILLS CURE CONSTIPATION.
TUTT'S PILLS CURE PILES.
TUTT'S PILLS CURE FEVER AND AGUE.
TUTT'S PILLS CURE BILIOUS COLIC.
TUTT'S PILLS Cure KIDNEY Complaint.
TUTT'S PILLS CURE TORPID LIVER.
TUTT'S PILLS IMPART APPETITE.

DR. TUTT has succeeded in combining in these pills the heretofore antagonistic qualities of a STRENGTHING, PURGATIVE, and a PURIFYING TONIC.

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced.

The rapidity with which PERSONS TAKE ON FLESH while under the influence of these pills, indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health & strength to the system. Sold everywhere.

THE BUFFALO LITHIA SPRINGS.

MECKLENBURG COUNTY, VIRGINIA.

THE GREAT TONIC AND ALTERATIVE WATERS OF THE AMERICAN CONTINENT.

BUFFALO LITHIA SPRING NO. 3.

The most Valuable and Powerful Tonic Waters of Virginia, and, with one exception, the most Valuable and Powerful Tonic Water of the United States.

ANALYSIS of this Spring, made by Prof. Wm. P. Tonry, of the Maryland Institute, Baltimore, March 17, 1877. Results expressed in grains per imperial gallon, shows it to contain 3.771 grains of the Carbonate of Iron, which is recognized by all medical men as incomparably the most potent and valuable form in which iron can be used as a Tonic. A comparison of this analysis with that of other chalybeate waters of the American Continent shows that the Buffalo Lithia Spring No. 3 contains a larger percentage of CARBONATE OF IRON than any other Mineral Water in Virginia, and, with one exception, a larger percentage than any other Mineral Water in the United States. Between this water and chalybeate waters generally there is one important difference. Chalybeate waters, as a general rule, are ASTRINGENT. The water of Spring No. 3 is APERIENT—rendered so by the Carbonate of Potash.

With this powerful BLOOD TONIC, in conjunction with the famous Buffalo Lithia Spring No. 2 (which contains a larger percentage of the Bi-carbonate of Lithia than any known Mineral Water), one of the most powerful alterative waters of the world, and to which is attributed by many eminent medical men a peculiar power as "a Nerve Tonic," it would seem to be a self-evident proposition that these Springs offer inducements to those in search of health, found nowhere else upon the American Continent.

BUFFALO LITHIA WATER,

As a General Remedial Agent in Chronic Diseases.

It is confidently claimed for these waters, and the claim though a strong one is substantiated by the testimony of many of the most eminent medical men of the country, both North and South, that in the following enumerated diseases: Affections of the Kidneys and Bladder, especially in Stone or Gravel, Dyspepsia, Rheumatic Gout, Rheumatism, Paralysis, Malarial Fevers in their chronic form, Dropsical Effusion, Uremia or Uremic Poison, Chronic Cutaneous Eruptions, and in the Functional Diseases peculiar to Women, more especially in all Disorders of the Menstrual Function. They have accomplished results as remarkable as were ever accomplished by any remedial agent whatsoever, whether in materia medica or among mineral waters. They are confidently recommended by some eminent medical men as a preventative of the disturbance and dangers incident to Pregnancy.

These waters, in cases of the dozen half gallon bottles, $5 per case at the Springs. Pamphlets sent to any address. Springs open for guests 1st day of June.

Sparkling Catawba Springs,

CATAWBA CO., N. C.

This desirable watering place will be open for select visitors 20th May, 1879. The Springs are situated near Hickory Station, on the Western North Carolina Railroad.

The bracing mountain atmosphere, with the health restoring properties of their waters, renders these Springs a most desirable resort for invalids and pleasure seekers.

The mineral waters embrace Blue and White Sulphur and Chalybeate. It is the best and most extensively fitted up watering place in the State, and can accommodate three hundred persons.

A good Band of Music will remain at the Springs during the season, and all the facilities afforded for amusements usually found at first-class watering places will be offered to visitors. A good supply of ice constantly on hand.

Conveyances will meet the trains daily at Hickory Station, to convey visitors to the Springs.

BOARD—$2 per day; $30 per month. Reduced rates for families. Invalids can have the advantage of four different mineral waters, warm and cold baths, Turkish, hot-air, vapor and medicated baths if desired.

NEW MANAGEMENT.

Open the 1st of June under the management of the undersigned. A first class seaside resort and the most pleasantly situated house on the Atlantic coast. The tide ebbs and flows daily beneath the building, and it is free from dust, flies and mosquitoes. The ball room is the most spacious and airy in the State. A good band of music has been engaged for the season. Surf bathing unsurpassed, with suitable dressing houses on the beach. Bath houses also within fifty yards of the house for still water bathing. Large and airy rooms also in the building occupied by the Proprietor the past two seasons, which can be had by those who prefer rooms on the mainland.

BAR, BILLIARDS AND TEN-PINS.

TERMS—$2.50 per day; $12.00 per week. Special rates made with Excursionists and for parties for more than one week.

The School Bill.

The school bill case wes opened in Wake Superior Court yesterday by Strong, Clark and Pace for plaintiff and Read, Busbee & Busbee contra. The arguments were pronounced exceptionally able and learned. Judge Earl has reserved his opinion. The impression is that the plaintiff will be the appealant in the Supreme Court.

Every Teacher in This State

Should send seventy cents to Alfred Williams & Co., Raleigh, for a sample copy of "Moore's School History of North Carolina" and examine it carefully before the opening of next school term. Teachers will have but little trouble with a class in "North Carolina History" for the children will be glad to learn the interesting facts about the "Old North State."

Wake Forest College.

Since the death of the lamented Wingate this Institution has experienced some trouble in selecting his successor. Dr. McDonald, of Richmond, Va., and Dr. Winkler, of Marion, Ala., have both declined the honor. The Board of Trustees meet again on the 17th to make another selection. It is hoped and expected that the Board will find somebody within the borders of the State adequate to the responsibility.

Died.

At his residence in Granville Co., Edward Haswell, on Wednesday evening July 2, 1879, in the sixtieth year of his age.

His disease was paralysis and his sufferings were long and severe. He was highly appreciated as an honest and benevolent man, as was fully demonstrated by the respect shown him after his death, being buried with Masonic honors in the presence of a large circle of friends and neighbors.

Improved Machinery.

We notice our friends Stronach & Allcott are placing a large quantity of machinery. They have had the choice of manufacturers as agents, and will act only for the best, and we are pleased to note the satisfaction they are giving both to manufacturer and purchaser. We saw yesterday a thresher and separator sold to Betts & Yates threshing on the plantation of D. Fuller, near the city. It is really surprising how well these machines do the work. Every one that has seen the machine work, decide with one accord that it is the best thresher and cleaner they ever saw, and farmers are sending far and near for them to come and thresh their oats and wheat crops. Stronach and Allcott are also handling the Reliable Southern Gunning and Saw-Mill Engines, Talbott & Son's. These engines are guaranteed to be the best engines sold in this State, the general decision of our people are "don't want any engine but the Talbott. We would advise all in want of improved machinery to call on our friends Stronach & Allcott; we know they will be treated right.

For Congress.—The fame of the average Congressman is of such short lived duration that it seems hardly worth while now to pay $20,000 for an election. Who wants the nomination in our district? for there is nothing equal to Henry's Carbolic Salve for the cure of all sores, wounds, cuts and skin diseases. Beware of counterfeits.

No better test of the civilization of a people can be found than in their hotels. Measured by this standard, such a hotel, for example, as the "St. Nicholas," New York, is fully worth its magnificent reputation as one of the great capitals of the world. The "St. Nicholas" hotel has been known for a quarter of a century as one of the superb establishment of the world. Its table, apartments, and general conveniences are now, as ever, unsurpassed. Rates have been cut down to *ante-bellum* prices.

Every reader of this paper can have free one month's subscription to our illustrated Magazine of choice literature, "Leisure, Hours, by sending eleven cents to pay for mailing the premium that goes with the magazine, viz.: a pair of Easter Cross chromos. These crosses are entwined with calla lilies, ferns, grasses, &c. We shall feel fully repaid for this gift if the articles are shown to your friends. Profitable Stock Investments.

Before Messrs. Lawrence & Co., the New York bankers, inaugurated the combination system of operating in Stocks, it was often very difficult for inexperienced operators, or even old stagers, to deal profitably by their single handed ventures. Now the field is open to every one for successful operations, and capital in any amounts, from $10 to $20,000, can be used with equal proportionate profit. Instead of distracting efforts among many customers, the orders of thousands are concentrated into one vast pool and co-operated for the benefit of all, dividing profits *pro rata* every month. A prominent citizen of San Francisco made $1,264.83 from an investment of $300 last month. Other customers are doing better still. $25 pays $125 during the month, $200 returns $1,200, or 6 per cent. on the stock, and so on as the market moves. New circular contains "two unerring rules for success," and full instructions for any one to operate profitably. All the advantages of unlimited capital and careful manipulation are secured by the combination method. Stocks and bonds wanted. Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

Sweetly Scented.

Experience tells us that a sweet and delicate odor renders a person of plainest features agreeable and attractive. A delightful odor from a lady or gentleman is always admired, and Doctor Price's Pet Rose, Meadow Flowers or Floral Riches will make all sweetly scented.

A LIVE SCHOOL FULLY IN EARNEST

The health and morality of the village good. Next term opens Aug. 11th. Board only $6.25 per month. Tuition $12.50 to $20 per term.

The following gentlemen will accept our thanks for the privilege of publishing there references:

President S. Simpson graduated from Trinity College in 1873. He is a thorough scholar, elegant in general culture, and a good teacher. B. CRAVEN,
Pres. Trinity College.

Rev. S. Simpson, A. M., was a student of Trinity College at the time I held the chair of Natural Sciences in the Institution. He made good advancements in the subjects in the Department I directed. His bearing was always dignified and courteous; and his reputation of the first character. WILL C DOUB,
Pres Louisburg Female College,
Louisburg, N. C.

I consider the Rev S Simpson, President of Yadkin College a gentleman of fine attainments, a good disciplinarian and an energetic and accurate instructor. I warmly recommend him to the public confidence and patronage.

W. T. CANNAWAY,
Prof. of Latin and History,
Trinity College, N C

It affords me pleasure to state that Rev S Simpson, A M, Pres of Yadkin College, N C, is a regular graduate of Trinity College, N C, having completed in addition to the other Departments of our curriculum, a full course in Greek and French, with the unanimous approval of the Faculty, and having also taken a partial course in German. I have no hesitancy in recommending him as fully competent to teach successfully all the above mentioned branches.

O. W. CARR,
Prof Greek and Modern Languages,
Trinity College, N C

PRESIDENT:

* * * * I am under lasting obligation to you for the earnest efforts you made to teach the great principles of business and prosperity. The more I do in life, the more I recognize the benefit of your teaching. *
